

Attention Utah Medicaid Pharmacy Providers

The Utah Medicaid Pharmacy Team, in consultation with the Drug Utilization Review Board, has created the Medication Coverage Exception Request prior authorization form that will replace the following pharmacy prior authorization forms:

- Brand Name Medication
- Combination Products
- Dosing Kit
- Non-Preferred
- Off Label Use of FDA Approved Drugs
- Quantity Limits
- Step Therapy

The consolidation of multiple, non-clinic prior authorization request forms to one common form will streamline the prior authorization review process. The Medication Coverage Exception Request form can be found on the Utah Medicaid website or at:

<https://medicaid.utah.gov/pharmacy/prior-authorization>.
